## SUBJECT INDEX VOLUME 11

January (pp. 1-142); February (143-282); March (283-426); April (427-568); May (569-708); June (709-840).

**A**denomas, rectocolic, secretions of, deplete electrolytes, 272  
American College of Cardiology  
aims of Postgraduate Educational and Workshop's Committee, 828  
an educational institution, 827  
annual convention program (1963), 135, 275  
annual convention (1964)  
    announcement, 567  
    call for abstracts for 1964, 704, 830  
committees for 1963-64, 705  
Convocation (1963) Address, 697  
Cummings Award for Inspired Teaching of Cardiology Abroad, 703  
International Circuit Courses, 563, 565, 703, 704  
officers 1963-64 elected, 566  
President's Column, 134, 425, 563, 565, 827  
Young Investigators' Awards  
    competition for 1964 announced, 707, 831  
    presented for 1963, 566

**A**neurysm  
of aortic sinus of Valsalva  
    ruptured, repaired, 547  
    with ventricular septal defect, 537  
of coronary artery, 228  
of mitral valve, ruptured, 674  
septal, with double rupture of heart, 413

**A**ngina  
drugs for therapy, assay of, 639  
EDTA therapy gives initial improvement, 501  
erythritol tetranitrate improves response to exercise, 600  
gastric distention in, 253

**A**ngiocardiography  
diagnosis of myxomas by, 802  
in congenital cardiac lesions, diagnostic, 447  
left ventricular, better than cardiac catheterization in ventricular septal defect, 436  
perforation of heart during, 819

**A**nticoagulants  
dosage related to thyroid function, 112  
in aortic stenosis, 348  
long term, after myocardial infarction, 158

**A**ntihypertensive agents  
reduce incidence of cerebrovascular accidents, 5

**A**orta  
cervical, syndrome of, 678  
coarctation of  
    and aortic stenosis (Nixon 1834), 238  
    angiotensin decreased urine, urinary sodium and chlorides in, 609

in pregnancy, 553  
relation to Marfan's syndrome, 259  
stenosis of, valvular and subvalvular, differentiated by upstroke time ratio, 319

**A**pexcardiogram with carotid tracing for evaluation and follow-up of subaortic stenosis, 427

**A**rrhythmia  
effect of antazoline on, 646  
rare, caused by A-V nodal parasystole, 123  
reduced by thioridazine hydrochloride, 78  
tachycardia and fibrillation, recurrent, treated by electric countershock, 87  
    ventricular, prolonged, not fatal, 107  
Wenckebach phenomenon, atypical forms of, 418

**A**rterio-arterial pumping, synchronous, hemodynamic effects of, in dogs after myocardial infarction, 768

**A**rteriosclerosis  
platelet adhesiveness in, therapeutic measures for, 290

**A**therosclerosis  
diet in, early studies overlooked, 283  
predictive test for, plasma clearing activity of  $I^{131}$ , 48

**A**trial dissociation, diagnosis of, 267

**A**uscultation  
areas of heart sounds, changing aspects of, 774  
generation of heart sounds, changing aspects of, 774  
in aged, 763

**A**-V block, induced in dogs by potassium independent of vagal action, 487

**A**-V conduction in lead poisoning, 409

**A**-V nodal rhythm, abnormal, due to digitalis excess, 384

**A**-V node, parasystole of, causes rare arrhythmia, 123

**B**allistocardiogram  
in coronary artery disease correlated with ECG and angiogram, 36  
correlation with simultaneous catheterization, 309

**B**ook reviews  
    Advances in Rheumatic Fever, 1940-1961 (Wilson), 274  
    Blood Volume Dynamics (Davis), 132  
    Buergers Disease: A Follow-up Study of World War II Army Cases (DeBakey), 826  
    Cardiac Output and Regional Blood Flow (Wade and Bishop), 696  
    Heart-Lung Bypass. Principles and Techniques of Extracorporeal Circulation (Galletti), 826

**Book reviews (continued)**

- Peripheral Vascular Diseases (Allen, Barker and Hines), 133
- Practical Electrocardiography (Marriott), 424
- Quantitative Vectorelectrocardiography (Brinberg), 132
- The Plasma Membrane (New York Heart Association, Inc.), 696
- Thoracic and Cardiovascular Surgery with Related Pathology (Lindskog, Liebow and Glenn), 274
- Bundle branch block
  - bilateral, 666
  - right, transient, vector- and electrocardiographic features, 173

**C**ardiac arrest, *see also* Cardiac resuscitation

- cardiopulmonary bypass in, hemodynamics of, 301
- effect of digoxin concentration on, in man, 194, 201

Cardiac bypass, arterio-arterial pumping, synchronous, after experimental myocardial infarction, 768

Cardiac catheterization

- hemorrhage, retroperitoneal, during, 823
- in congenital cardiac lesions, differential diagnosis, 447
- in small ventricular defect not as effective as angiography, 436
- normal venous collapses during, 357
- simultaneous with ballistocardiography, 309
- upstroke time ratio differentiates valvular from sub-aortic stenosis, 319

Cardiac massage, *see also* Cardiac resuscitation

- open and closed, repeated, in patient with myocardial infarction, 808

Cardiac hypertrophy, massive, 18

Cardiac pacemaker

- diaphragmatic twitching after implantation, 694
- electrode catheter, for complete heart block from myocardial infarction, 379
- idioventricular, hemodynamics of complete heart block, 594
- implanted
  - hemodynamics in patient with, 399
  - malfunction of, induced ventricular tachycardia, 403
  - synchronous, for long term correction of heart block in dogs, 362

Cardiac output in acute myocardial infarction, 587

Cardiac resuscitation, *see also* Cardiac massage

- cardiac compression and repeated defibrillation in myocardial infarction, 814
- repeated, in myocardial infarction, 808

Cardiology

- Reflections of a Pioneer in (White, P. D.), 697

Cardiotoxicity, lead poisoning cause of A-V conduction defects, 409

Carotid sinus pressure, dangers of, 129

Carotid tracing with apexcardiogram for evaluation in subaortic stenosis, 427

Catecholamines

- depletion induced by reserpine, 743
- intracellular binding of, 743

Cerebral angospasm experimentally induced, 66

Cerebrovascular accidents, antihypertensive agents reduce incidence of, 5

Commissurotomy, mitral, effect of, 348

Conduction, concealed, produced experimentally by potassium, 72

Congenital anomaly

- aneurysm of sinus of Valsalva, ruptured, corrected by surgery, 547
- aortic sinus aneurysm with ventricular septal defect, 537
- atrial septal defects diagnosed by indicator-dilution curves, 517
- cervical aorta, 678
- combined ventricular hypertrophy in infants, vector-cardiographic criteria for, 164
- cor triloculare biventricular, 476
- dextrocardia and myocardial infarction, 119
- Ebstein's anomaly, 694
  - masked by other lesions, 100
- hypoplasia of right ventricle, 532
- mirror image dextrocardia with situs inversus totalis surgically repaired, 518
- parachute mitral valve in obstruction of left side of heart, 714
- phonocardiogram in, Q-1 interval indicates size of left-to-right shunt, 452
- subtotal pulmonary venous connection to cor triatriatum and left innominate vein, 525
- tetralogy of Fallot
  - differential diagnosis of, 476
  - TsE loops in, 55
- tricuspid stenosis with pulmonary atresia, 8
- underdeveloped right ventricle, hypoplasia of tricuspid valve and pulmonary stenosis, 458
- ventricular septal defect
  - differential diagnosis of, 447
  - small, diagnosis, 436

Cor pulmonale, electrocardiographic changes in, not always diagnostic, 622

Cor triloculare biventricular with pulmonary stenosis and normally related great vessels, 476

Coronary artery, aneurysm of, 228

Coronary artery disease

- arteriosclerotic, treatment with disodium EDTA ineffective on long term basis, 501
- BCG, ECG and angiogram in, compared, 36
- platelet adhesiveness increased after fat meal in, 290
- plasma triolein- $I^{131}$  capacity in, 48

Coronary occlusion

- acute, counterpulsation for increased collateral circulation, 218
- agglutination of sickle cells cause of, 686
- hypotension during, factors contributing to, 205
- pathogenesis of ventricular fibrillation following, 709

Counterpulsation for opening coronary collaterals in coronary occlusion, 218

**D**eaths, Gasul, Benjamin, M., 281

Dextrocardia, myocardial infarction and, 119

Diabetes, platelet adhesiveness in, 299

Diet, relation to atherosclerosis, early studies, 283

Dilution curves, radioisotope, for determining cardiac output in myocardial infarction, 587

Drugs

- adrenocorticosteroids for posttraumatic pericardial effusion, 115
- angiotensin
  - compared to levarterenol for hypotension, 82
  - for shock, 82
  - in aortic coarctation, 609
- antazoline, antiarrhythmic properties of, 646
- antianginal agents, assay of, 639
- antihypertensive agents reduce incidence of cerebro-vascular accidents, 5
- cortisone not indicated in myocardial infarction, 332
- dicoumarol, long term use after myocardial infarction, 158
- digitalis
  - concentration unaltered after cardiopulmonary bypass, 194, 201
  - excess of, usual cause of abnormal A-V nodal rhythm, 384
  - in pulmonary disease, effect lacking, 477
- disodium EDTA in coronary artery disease, 501
- erythritol tetranitrate improves responses of anginal patients to exercise, 600
- isoproterenol
  - diagnostic test for ventricular hypertrophy, 4
  - for hypertrophic subaortic stenosis, 8
  - in evaluation of stenosis, aortic and pulmonic, 734
  - minimal dose therapy, 561
- norepinephrine
  - pressor effects of reserpine increased by infusion of, 743
- procaine amide toxicity treated with THAM, 368
- reserpine
  - catecholamine depletion induced by, 743
  - pressor effect of, increased with NE infusion, 743
- THAM in experimental procaine amide toxicity, 368
- thioridazine hydrochloride, antiarrhythmic activity of, 78
- triolein I<sup>131</sup> in testing plasma lipids, 48

**E**bstein's anomaly

- case of, 694
- characterized by cardiac irritability and progressive conduction defects, 100

Editorials

- exercise, in patients with angina, 600
- in biventricular hypertrophy in infants, 164
- in carbon monoxide poisoning, 93
- in diagnosis of pulmonary heart disease, 622
- in right bundle branch block, transient, 173
- potentials, velocity of analysis by electronic computer, 499
- Q waves of, abnormal, transitory in tachycardia, 659
- T waves, benign differentiated from pathologic, 338

**E**lectrolytes, depletion by secretions of rectocolic adenomas, 272

Electric countershock, evaluation of indications for, in ventricular tachycardia, 654

**E**pidemiology

- hypertension
  - in adults of Agra, India, 61
  - in children in high altitudes, 143
  - in men in high altitudes, 150
- Exanthem associated with acute pericarditis, 798
- Extracorporeal circulation, effect of digoxin concentration on, in man, 194, 201
- Extrasystoles, atrial or ventricular, precipitate paroxysmal tachycardia, 757

**F**alcemic cardiopathy, coronary occlusion by agglutination of sickle cells, 686

Fellowship, writing, grant, 141

**F**ibrillation

- myocardial O<sub>2</sub> uptake, 483
- ventricular, current concepts of, after coronary occlusion, 709

**G**astric distension cause of angina pectoris, 253
